JOB & CAREER FAIRS!

Faribault Job Fair – April 14th, 10am to 1pm – South Central College

Openings in: Customer Service, Healthcare, Manufacturing, Construction, Retail and MORE!

Live CareerForce Workshops!

Attend Live Online Workshops, Explore Careers, & attend Virtual Career Fairs for FREE! These online workshops and events are presented through WebEx or Teams. This is a 6-session series that covers the essentials of the Creative Job Search (CJS) workshop. Registration is required. Participants will receive an email prior to the event with a link to join the webinar and instructions.

<https://careerforce.mn.gov/education-and-training>

Microsoft Excel 365 Basics – Offered by ABE – Online: March 31st – 9am – 12pm. For beginning users. Learn to create new spreadsheets, & how to enter, edit & format data in Excel. We'll introduce autofill, write simple formulas & use the AutoSum function! Participants do not need Microsoft Office software to take this.

Managing Change – Online: March 31st – 9:30am – 11:30am. Career change? Job Loss? Whether expected or unexpected, changes of all types interrupt our lives. They leave us not knowing what to expect or how to proceed, yet we must find a way to keep moving forward. Learn how to manage, persevere, and be resilient in challenging times.

Creative Job Search: The Job Interview – Online: March 31st – 10am – 11am. You've come to the moment in your job search when your hard work has paid off. You've received an interview. Take a moment to celebrate. Then start preparing. Here we cover all the things you'll want to do to make the best possible impression during your interview. This is part of a 6 session series that covers the essentials of the Creative Job Search (CJS) workshop.

Microsoft Word 365 Intermediate- Offered by ABE – Online: April 1st 9am – 12pm. For users who are comfortable in Microsoft Word. Learn to use Word's built-in text styles & style sets, plus tab stops, columns, tables & more to create polished, professional documents. Participants do not need Microsoft Office software to take this workshop.

Resume Writing Workshop – Online: April 1st 1pm – 2:30pm. Through this workshop, we cover best practices for how to create a resume that meets the specific requirements of a position. We will also demonstrate the different types of resumes and when to use them, as well some common mistakes to avoid.

Microsoft Word 365 Advanced – Offered by ABE – Online: April 2nd – 9am – 12pm. For experienced Word users. Learn to insert & format graphic elements to create eye-catching flyers, invitations, brochures & more! Participants do not need Microsoft Office software to take this workshop.

Leveraging AI to Enhance Your Job Search – Online: April 2nd – 1pm – 2:30pm. Unlock the power of AI to sharpen your job search and stand out in a competitive market. In this interactive 1.5-hour online workshop, job seekers will learn practical, easy-to-apply strategies for using today's most effective AI tools to target resumes to specific job postings, identify and close skill gaps, craft compelling cover letters, and prepare confidently for interviews. Whether you're actively searching or planning your next career move, you'll walk away with actionable techniques, step-by-step workflows, and ready-to-use prompts that elevate your applications and help you present your strongest professional story.

Microsoft PowerPoint 365 Basics – Offered by ABE – Online: April 7th – 9am – 12pm. For beginning users. Learn to create a simple slideshow using multiple layouts. Insert pictures & create SmartArt. Participants do not need Microsoft Office software to take this workshop.

Networking Connections – Online: April 7th – 9:30am – 11:30am. Networking is a critical skill in your job search success, but finding the time and confidence to make it happen is not always easy.

This workshop is designed to teach you the value of networking as well as give you tips, tricks, and suggestions to increase your comfort level.

Creative Job Search: Internet and Social Media (Linkedin) – Online: April 7th – 10am – 11am. Do you know how to effectively use the Internet and Social Media to assist in your job search? What does networking look like online? This workshop will provide answers to those questions and provide helpful tips on how to leverage a LinkedIn account to enhance your career. This is part of a 6 session series that covers the essentials of the Creative Job Search (CJS) workshop.

Job Posting

Position: Electronic Calibration Technician

Description:

We are seeking an individual who desires a career in gage calibration. The ideal candidate would have formal calibration training, such as military PMEL, etc., and have at least 3 years military calibration lab experience or 5 years of commercial calibration lab experience.

We desire someone with formal training in electronics, who can become a "jack-of-all-trades" technician, utilizing strong electronics and mechanical aptitudes. We will consider training a strong candidate with a related background.

Northstar Calibration, Inc. is an ISO 17025 accredited commercial calibration laboratory, located in Owatonna, MN. We are growing and we need additional help to serve our customers. Our people contribute directly to the team and satisfy our customers to make our business successful and earn quarterly bonuses. Work is performed in our accredited laboratory in Owatonna, as well as on-site at our customers' manufacturing locations throughout southern Minnesota and the upper Midwest.

Key Responsibilities:

The Calibration Technician provides gage calibration, repair, & servicing on our customers' gaging and measuring devices, including electronic, torque, force, pressure, mass, and dimensional gages. Work includes repairing of dimensional, mechanical, and/or electronic instruments, as well as on-site field service requiring some travel.

Knowledge, Skills, & Abilities:

1. Formal calibration training, military PMEL or equivalent preferred; strong electronics and mechanical aptitudes. (required)
2. Hands-on electronics calibration experience, such as calibrations of O-scopes, HiPot, counters, function generators, power supplies, meters, thermocouples, etc. (required)
3. Attention to detail and accuracy of work. (required)
4. Communication, computer, interaction, planning, & organizing skills. (required)
5. Physical abilities to lift, stand/maneuver, take readings, etc., related to conducting calibration & repair activities, both in the lab and on-site in the field. (required)
6. Technical knowledge and experience in calibration operations, uncertainty analysis, proficiency testing, and general metrology. (desired)
7. ASQ Certified Calibration Technician certificate. (desired)

If interested, send resume to:
